

Annual Transportation Report 2020

# WASHINGTON PARK

Explore   
WASHINGTON PARK

# ACKNOWLEDGMENTS

Explore Washington Park (EWP) would like to acknowledge the EWP Board of Directors for their work in supporting our vision and goals:

Anna Goldrich, *Chair, Hoyt Arboretum*

Cynthia Haruyama, *Vice Chair, Portland Japanese Garden*

Dave Malcolm, *Secretary, Sylvan Highlands Neighborhood Association*

Steve Cole, *Treasurer, at large member*

Adena Long, *Portland Parks & Recreation*

Billie Moser, *Travel Portland*

Jani Iverson, *Portland Children's Museum*

JC Vannatta, *TriMet*

Joe Furia, *World Forestry Center*

Kathy Goeddel, *Arlington Heights Neighborhood Association*

Scott Cruickshank, *Oregon Zoo*

## EXPLORE WASHINGTON PARK STAFF

André Lightsey-Walker, *Equity Specialist*

Dana Garrett, *Office Manager*

Danny Dunn, *Operations Manager*

Heather McCarey, *Executive Director*

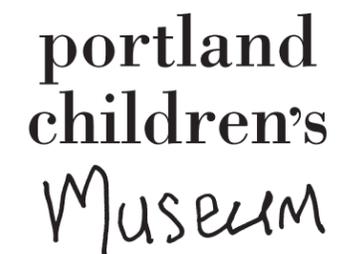

Kelsey Kuhnhausen, *Digital Marketing & Design Specialist*

LeiLani Barney, *Marketing Manager*

## PORTLAND PARKS & RECREATION STAFF

Antonina Pattiz, *Washington Park Program Coordinator*

Explore Washington Park is a 501(c)3 non-profit that helps connect people with the culture, diversity, and wonder of nature in Washington Park.

**The organization was established in 2014 and is funded through parking meter revenue in partnership with Portland Parks & Recreation. 100% of parking proceeds stay in Washington Park and make this report possible.**

We strive to improve the visitor experience at Washington Park by:

- Ensuring the Park feels inclusive, safe, and easy for all visitors to get to and navigate
- Providing visitor access to free shuttles and information on Park amenities and features
- Creating tools that can better serve and support visitor needs

This year marks the 7th annual peak season transportation survey, and the first off-peak survey. 851 responses were collected during the peak season survey in August and 575 were collected for the off-peak survey in February. Surveys were conducted at the six major park institutions for the off-peak 2020 survey in February:

- Portland Children's Museum
- Hoyt Arboretum
- Portland Japanese Garden
- International Rose Test Garden
- World Forestry Center
- Oregon Zoo

The Portland Children's Museum and World Forestry Center were closed in August due to COVID-19 and state guidelines and, therefore, were not included in the 2020 peak season survey.

We use methodology developed for us by Portland State University to collect data and track trends each year. However, due to closures, capacity limitations, and safety protocols caused by COVID-19 we had to adjust our methodology for the August survey. The adjustments included: social distancing protocols, fewer staff, changes in survey software, and the use of personal cell phones by some respondents to complete surveys. Despite the slight pivot in methodology, the survey data will help guide our activities into the COVID-19 recovery and beyond by providing insights into the following key indicators:

- Where people are visiting from
- Average number of people in each group and vehicle
- Where people park vehicles
- Use of the Washington Park Free Shuttle
- Use of public transit
- Visitor satisfaction information
- Demographic information

# EXECUTIVE SUMMARY

In 2020, the COVID-19 pandemic impacted Washington Park much as it did the entire city. Institutions closed, capacities were limited, and the population was told to stay home and stay safe. The peak season survey showed the following trends that reflect this impact:

- Increases in private automobile mode split and decrease in transit
- Increase in satisfaction of travel, free shuttle, and overall park experience
- Reduction in cross-venue attendance
- Decrease in first time visits to the Park

We believe these trends will return to pre COVID-19 levels over time, but recognize that the change in behavior will create additional access challenges for the Washington Park.

The 2020 off-peak survey gives our first glimpse at transportation and park use during January and February. Though the trend lines will be the main focus in future reports, there are great insights into visitor behavior that we were not collecting data on in the past.

# CONTENTS

**01** **VISITOR PROFILE**  
*Who's coming to the Park?*

**02** **DESTINATIONS**  
*Where are visitors going?*

**03** **MODES**  
*How did they get here?*

**04** **MOVEMENTS**  
*How did they get around the Park?*

**05** **TRENDS**  
*How are things changing?*

**06** **VISITOR EXPERIENCE & ATTITUDES**  
*How are we serving our guests?*

# VISITOR PROFILES

*Who's coming to the Park?*

From TriMet MAX Light Rail station, take the free shuttle or Line 63 to access the rest of the park.

### WALK from HOYT ARBORETUM VISITOR CENTER

20 minutes 1.0 miles on trails	40 minutes 1.8 miles on trails
to INT'L ROSE TEST GARDEN	to FITZGOLD MANSION
to PORTLAND JAPANESE GARDEN

# DESTINATIONS

*Where are visitors going?*

# VISITOR DESTINATIONS

## WHERE GUESTS WENT

- EWP is developing methodology to better collect visitor data in hard to measure areas such as hiking trails and at memorials.
- Indoor institutions host a far greater percentage of visitors in off-peak seasons.

MODES

# MODES

## MODE SPLIT DETAILS

- Approximately 25% of all visitors were regular visitors to Hoyt Arboretum. This caused the increase of visitors parking in the gravel lots.
- With less congestion in the parking lots, there was a significant reduction in neighborhood streets being used.

- The other category included alltrails.com and tripadvisor.com.

# VISITOR EXPERIENCE OFF-PEAK 2020

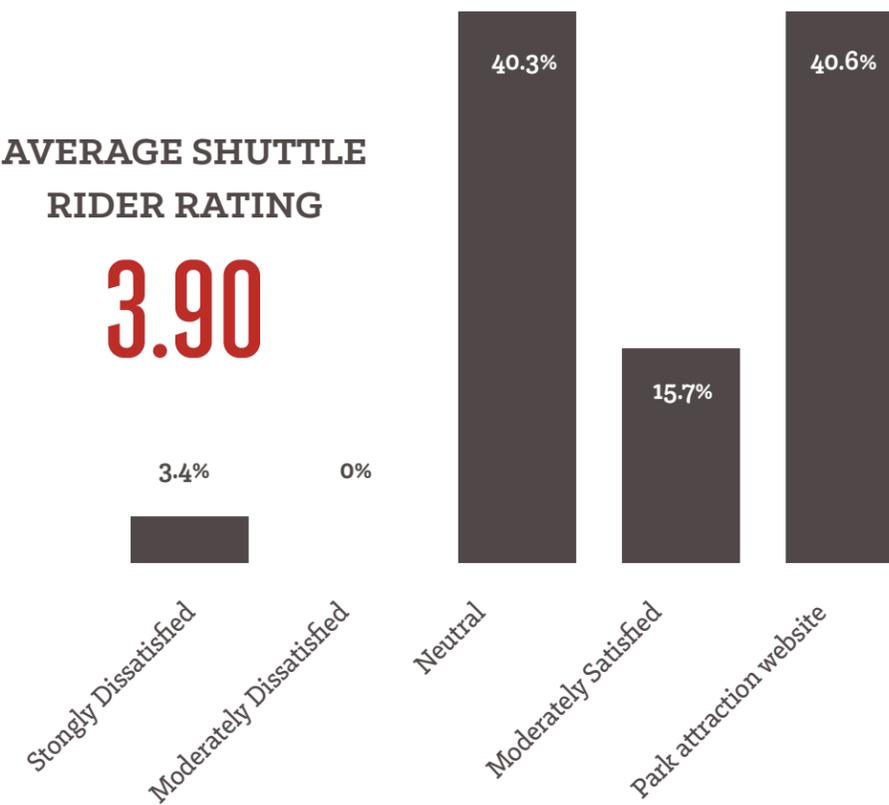

## TRAVEL EXPERIENCE BASED ON TRANSPORTATION METHOD

## FREE SHUTTLE RIDER RATING

### AVERAGE SHUTTLE RIDER RATING

**3.90**

- The Washington Park Free Shuttle dropped to under 4 stars in service satisfaction. We believe there are two main reasons:
  - Free Shuttle only ran half of the days the survey was being conducted. (Saturday, but not Friday)
  - Free Shuttle ran every half hour vs quarter hour due to anticipated ridership
- The Net Promoter Score is slightly lower than Peak 2019. This could be impacted by weather, seasonal changes in the Park being less popular (lack of roses), or change in who is visiting.

## NET PROMOTOR SCORE

**76.6%**
